Wildlife Management Area

Montague
1,339 Acres

- SIZE:** Located off Chestnut Hill Road and North Leverett Road, this 1,339 acre area contains mixed terrain varying from gentle to steep slopes, nearly vertical ledges and flat bottom land.
- U.S.G.S. QUAD:** Orange
- VEGETATION:** This area is primarily mixed hardwood forest (including some stands of American chestnut) with an understory of mountain laurel and blueberry, but there are several acres of open field and old pastures with fruit trees.
- WATER:** A long stretch of Spaulding brook (a wild brook trout stream) is contained within this area. There are also some smaller tributaries of the Sawmill River, a stocked trout water.
- WILDLIFE:** White-tailed deer, bear, raccoon, gray squirrel, fisher, turkey, ruffed grouse, cottontail rabbit and snowshoe hare, along with numerous non-game species. This area is NOT stocked with pheasant.
- SPECIAL REGULATIONS:** None
